BANUPRIYA M

Full Stack Developer | B.Tech Information Technology

+91 8122123979 | kpmbanupriya@gmail.com | linkedin.com/in/banupriya-m-1337612b9 | github.com/banupriya0811 | Tenkasi,TamilNadu

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on experience building responsive, database-driven web applications using Node.js, Express.js, React, MySQL, and Flask. Proficient in REST API development, MVC architecture, and agile collaboration. Completed three internships delivering production-ready features. Passionate about clean code, UI/UX design, and scalable software solutions.
Seeking an entry-level full stack or frontend developer role to contribute to innovative product teams.

TECHNICAL SKILLS

Programming Languages: Java, Python , SQL
Frontend Development: HTML5,CSS3,JavaScript,React.js
Backend Development: Node.js, Express.js
Databases: MySQL,SQLite,Postgresql
UI/UX Design: Figma
Tools & Platforms: Git, GitHub, VS Code
Cloud & OS: Cloud Computing , AWS Fundamentals, Windows, Linux (Ubuntu)

WORK EXPERIENCE

Full Stack Developer Intern – Aescion EDTECH Solutions *Aug 2026 – Nov 2026*

- Contribute to frontend and backend development for real-world web applications, implementing features based on project requirements.
- Collaborate with the development team on feature integration, debugging, and testing to improve application functionality and usability.

Full Stack Web Development Intern - Fantasy Solution (Remote) *Jun 2025 – Jul 2025*

- Developed responsive full stack web applications using HTML5, CSS3, JavaScript, and Node.js, integrating REST APIs to deliver dynamic, real-time user experiences.
- Collaborated in Agile sprints and code reviews to build modular, maintainable features with improved performance and cross-device compatibility.

Full Stack Web Development Intern - 8Queens Software Technologies Pvt. Ltd.(Offline) *Jan 2025 – Feb 2025*

- Built responsive web applications using HTML, CSS, JavaScript, and backend technologies, creating reusable UI components to accelerate development workflows.
- Used Git and GitHub for version control and team collaboration; performed debugging and module testing to improve application stability.
- Gained practical experience delivering production-ready features in a professional software development environment.

PROJECTS

AI-Powered Fake Certificate Detection using GAN

Python | Flask | JavaScript | HTML5 | CSS3 | SQLite | GAN | CNN | REST API

- Designed end-to-end UI/UX using Figma and developed a full stack web application with Flask, SQLAlchemy, and secure authentication using Bcrypt, including REST APIs for user and document scan management.
- Built an AI-based document classification pipeline by training a GAN to generate synthetic forgeries and a CNN (MobileNetV2) to detect them, achieving 90%+ accuracy with responsive cross-device support.

Bug Tracking and Release Management System

React.js | Node.js | Express.js | PostgreSQL | REST APIs | JWT

- Developed a full-stack bug tracking application with separate Admin, Developer, and Tester dashboards for efficient issue management.
- Implemented JWT-based authentication and role-based access control to manage user permissions.
- Enabled bug reporting with screenshot uploads, priority assignment, comments, and real-time status tracking.

Solar PV Health Monitoring and Fault Classification System

Python | FastAPI | React.js | JavaScript | Machine Learning | Scikit-learn | Pandas | NumPy | REST API

- Developed a full-stack web application using FastAPI and React.js to monitor Solar PV system performance and identify operational faults through machine learning-based classification.
- Implemented data preprocessing and feature engineering on a large-scale Solar PV dataset (1.37 million+ records), training and comparing Decision Tree, Random Forest, and SVM models to classify five operating conditions: Normal, Short-Circuit, Degradation, Open-Circuit, and Shadowing.

EDUCATION

B.Tech – Information Technology - University College of Engineering, Tiruchirappalli, Tamil Nadu *Dec 2022 – Jun 2026*

CGPA: 8.1

Relevant Coursework: Web Technologies, Full Stack Web Development, Database Management Systems, Computer Networks, Operating Systems, Cloud Service Management, UI/UX Design

CERTIFICATIONS

- Cloud Computing - NPTEL (IIT Kharagpur)
  Topics: Cloud service models (IaaS, PaaS, SaaS), Virtualization, AWS Fundamentals, Cloud Security
- Full Stack Web Development - NoviTech R&D Private Limited
  Topics: HTML, CSS, JavaScript, Node.js, React, REST APIs, MySQL Integration
- UI/UX Design - Simplilearn
